EXPERIENCE

UI Overlay Designer/Engineer

05/2024 – 12/2025

Faze Media

Remote

- Designed and developed custom on-screen overlays and widgets using HTML and CSS, reaching an audience of 100,000+ viewers.
- Collaborated with a team to define the design and architecture of overlays, ensuring optimization and on-screen stability.

Software Engineer

11/2024 – 03/2025

Mercury RP

Remote

- Designed and developed a Discord-based automation platform integrating payment processing, automated role assignment, giveaway management, interactive surveys, and job-search functionality.
- Developed backend logic to automate user workflows and provide users with access to services directly through Discord.

PROJECTS

Gravity Simulation <https://github.com/fasshon/Gravity/tree/main>

08/2026

- Built a physics simulator in C++ with OpenGL capable of simulating gravity and particle movement through space.

CleanSweep

07/2025

- Built a Windows optimization tool in C++ using ImGui and OpenGL.

SKILLS

Programming Languages: C++, Python, HTML, CSS

Software and Tools: OpenGL, ImGui, IDA Pro, Ghidra, x64 DBG

Languages: English

EDUCATION

Coastal Carolina University

Conway, South Carolina

Bachelor of Science, Computer Science. GPA: 3.5/4.0.

2030

Relevant Coursework: Introduction to Computer Science (CSCI 120)
